Tuesday 26th May 2020

Dear Everyone

School update

Over the course of last week and today further documentation from the DfE and LA was published in relation to the phased re-opening of schools.

At this present time there are still lots of questions that either remain unanswered or have had contradicting responses shared. Therefore, to ensure the safety of everyone within the Woodsetton community, school will continue to remain closed for the majority of pupils at this present time until at least the w.c. 8th June.

Please be assured that as the Government revises their guidance for schools, we will update our school plans accordingly.

It is hoped that any parents who have expressed an interest in their child returning to school will be contacted w.c. 1st June to review/complete an individual pupil risk assessment and consider 1) whether it is safe and appropriate for them to attend school; 2) what procedures / safety measures need to be put into place prior to their return and 3) whether staffing levels permits this happening.

May I take this opportunity to thank you for your continued support and understanding with this.

Yours sincerely

Mrs K Beer
Headteacher
