

Whilst schools are closed here are some ideas for you to use at home with your child. Please make use of the online live activities (which can also be used at a later time). Whilst the weather is good, use this time to take the learning outdoors and focus on practical activities as much as you can. Help the children to apply skills to their everyday lives which will improve their independence and lifelong learning.

Independence Skills		Washing routine; get dressed; help prepare breakfast; wash up & put away (practice handwashing)
